

**Vegetables and Annual Flowers:** Line bottom and sides of plant holes and seed furrows with 1-2 inches of our Pure Organic Worm Castings. Set seeds or plants in place and cover with soil. Side dress during growing seasons at a rate of 1/2 cup per plant or 1 cup per linear foot of row once every 2 months.

**Transplant:** Place 1/2 handful into hole. Add plant and fill hole with soil.

**Established:** Use 10-20lbs per 1,000 sq. ft. Sprinkle on soil near plant and water.

**Perennials:** Work 1/2 cup Greenleaf Farm's Pure Organic Worm Castings into the soil above their root zone taking care not to damage shallow roots. Apply in spring, early summer and early fall.

**Potted Plants and Seeds/Seed Flats:** For **potting mix** use 1 part Greenleaf Farm's Pure Organic Worm Castings to 4 parts soil.

**Established:** Add 1" of Greenleaf Farm's Pure Organic Worm Castings to top of soil. Mix in taking care not to damage shallow roots - water - repeat every 2-3 months.

**Roses, Trees, Shrubs and Berries:** Mix 1 part of our Pure Organic Worm Castings to 3 parts soil. Surround newly dug hole with mixture.

**Established:** Use 2lbs per inch of tree trunk diameter. Spread evenly over tree root area and water.

**Lawns:** Apply 20-30 lbs. per 1000 sq. ft. Work lightly into the topsoil. Mix in grass seed and water well.

**Established:** Distribute 15-20lbs per 1000 sq. ft. as a top dressing. Add 2-3 times per year.

**Tea:** Casting tea is excellent for fruiting, flowering or difficult to access potted plants. Best when used within 24 hours. Soak 1-part castings in 3-parts water for 12-24 hours. Stir well and water as usual. Aerate if possible.

**Compost Piles:** Spread a thin layer of Greenleaf Farms Worm Castings between each new layer of material to be composted.
